from product to wall to allow for inspection.

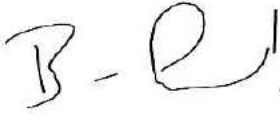

Treatment Notes

Made contact with Bruce. Bruce and multiple other customers requested I take care of rodent problem on aisle 1. I spent my entire time here today on this aisle. Inspected possible harbouring, feeding, and access areas for rodents. Placed snaptraps and glueboards on both sides of aisle 1. Used rodent lure and other types of bait I found around the worksite(cookie crumbs/dog food/cheetos/etc). Will be back Monday to check glueboards and snaptraps. No new recommendations at this time. Thank you for your business!
